### Kyrael

There is an ancient context to my vibration, more ancient than anything that has gone before and so ancient that it cannot be counted. Yet with such ancientness there comes a specific feeling. Being part of the First Breath of God, the wisdom of the ages and the original love source is held within my vibration and it matures as the Outbreath of God continues to move through Creation.

## Archangel Kyrael

“We are eternal confirmation of the Divine Presence. When that Presence is near and the Supreme Consciousness is focused, we become like an entranceway. We become a declaration and announce by *our* presence that the greater Presence is imminent. That is part of our function and our way of being for we manifest in the wake of our Creator. Yet, we are linked in a

special way with Divinity and so it is that we appear in an instant when Divinity is focused. It is not our choice for that is irrelevant. It is how we are. When you turn a switch does not the light bulb illuminate? We are the illumination. We are a consequence of the presence of Divinity. In this regard, we ebb and flow – those who you call angels.”

### Akhnaton

“For humans, a point of reference is that angels can be messengers. The greatest message that the angels bring is their very presence. That they exist is the message and in so existing reveal to us the enormity of Divine Love. They are not messengers - **they are the message**. They come closely to see you in the oneness of Creation and even merged as we are, they see into every consciousness. For they have perception of things where we do not. They see with Divine eyes and so see truly, seeing also what must be so. So then, we are observed in this manner and we take shelter and sanctuary in this understanding. For you in your human consciousness that which is, must be so.”

### Archangel Michael

“I come as a consequence of Divine Presence. I have witnessed you since you burst into Creation and I witness you still.”

### Akhnaton

You come into a remembrance of the deepest wonderment, astonishment even, that such a manifestation as the Angelic Presence is ours to behold. You feel their nearness. Come into this experience for it is exquisite as the angels pass over the waters of Creation.

### Archangel Kyrael

*“The angelic realm halos Creation, moving through it yet not born of it. To be within the presence of one who is angelic is an unforgettable experience. You perceive reflections of us for our energies are vast and powerful, being in the image of Source and therefore undiluted to a degree. As such, echoes of us go out for we are too powerful to fully present ourselves in our limitless form.”*

## Archangel Michael

“We angels are one. The angelic realm is not in fact individualised. Though you bestow names upon us, the archangelic consciousness does not need to be individualised for we permeate Creation. We whom halo Creation yet are not individualised into it, cannot know separation. To be individualised is to be separate and so then we are not. When you call upon we archangels the whole of our collective consciousness turns towards you for we are of the One Angelic Mind. When we communicate we speak with various names, seemingly as angels who can be differentiated from each other but in truth this simply is not so.”

“Dearest ones, come into your higher perception and into the circle of angels who await your presence. You sense our angelic presence and begin to perceive vast creatures of light about you for we come always as angels of light. There is a reverence between us as the angels look upon the face of God in each of you and you by turn, experience the angels of God who administer the Divine Will and its unfolding within Creation. We are creatures of light and are by your terms blinding to behold.”

### The Angelic Mind : Kyrael

The Angelic Mind is an instrument; a divine window. There is an outpouring from that which is I. Feel how I draw to the surface of your human consciousness great empowerment of self – this is important. The Angelic Mind has this capacity; to uplift and draw from consciousness all that is beauty and divine. In truth, it may be said that angels perceive and work always with the divine reflection in each of you. For that which is angelic seeks always and exclusively the Divine. We, in truth work not even with your soul rather we only have perception of Divinity.

Our song is always to the Divine wherever it may be found so then, we interface with all who make their way through Creation as divine ‘reflections’. Come into the resonance of this. I see only your divinity and to your divine reflection do I speak. This is how the Angelic Mind manifests all that is miraculous to you. We simply speak to God. We preserve the divine reflection. We praise

I am not one of the  
archangels you are familiar  
with for I am not part of  
human mythology. I come at  
this time as a cosmic angel;  
one whom is in service  
throughout the cosmos and  
not tied to any particular  
dimension of existence  
**Archangel Kyrael**

and preserve it within every living consciousness in your Creation. So then, are you not blessed?

### The Angelic Gaze : Kyrael

“I come as one archangelic so then begin to experience the gift of my vibration which is an aspect of the One Angelic Mind. So then, I turn my gaze upon each and to each I

observe - there is truth to this for those whom are angelic have their perception unique amongst all Creation. We observe you in a manner unavailable to those whom are not angelic. Understand this. The gaze of an angel perceives the entirety of Creation. So then I see all that you are across eons of your time and then more than this, I observe the window of your soul. Uniquely do I perceive the divine portal that is you. I perceive your arrival from Spirit – the alpha point of your soul. Again I say, you are a window through which I see – the Creator of my adoration. You understand this and we whom are angelic serve always the divinity within you. Come into your breath. You begin to deepen, expanding outward, sensing the perpetual nearness of your God of Love.”

### Archangel Kyrael

I ask you to perceive me in the centre before you, however you wish. For I come in my vibration and I have angelic wings of energy. The wings of angels and in particular of Archangels, are enormous and vast. They are not contained by literal form.

The energy of these etheric wings that so popularly define us upon earth, is very powerful and is of the Angelic Principle vibration.

## Sananda

“We sense the Angelic Presence forming about us. So then, we are uplifted for their presence is like a breath of joy. It comes to our awareness that they bring their song. Do you know that every soul within Creation has its beginning point in ‘song’? God imagined the beauty of you and sang to you of your beauty and so then you were born with the gift of this song which is uniquely yours. Do you know that the angels sing

of every single soul’s ‘song’ and return them to God. So, when you are named in Angelic Song then this is what we speak of. They return our beauty as they perceive the experience of every one of us they are sent to oversee. They sing of how we come into our beauty and how it ripens within our explorations of life. They sing of the majesty of Divine Creation and of many things we can only wonder at.”

### Angelic Song : Archangel Kyrael

“All about us there is the Angelic Mind – a most wondrous consequence of Divine manifestation. You understand that we are not part of Creation. The Angelic Mind externalises itself into a choir of angels about you. It is a presence but more than this, it is a song; that which is traditionally associated with the angelic realm by humans. It is beyond communication. It is beyond the praising of Divinity. It is of such things that you do not have reference for as you are of Creation and we are not. Begin to deepen, my dearest ones. The soul of each has its presence felt, for there is a naming this day. You are being woven into ‘angelics’. You are naming into song. It is a blessing that may not be described overly. It is part of the angelic function. Angelic song is vastly powerful. It is like a thunderclap in your terms.”

### Serapis Bey

*As you open and surrender there is the most amazing fragrance and beauty, for you understand the angelic realm experiences the greatest intimacy with God. They wear this as a fragrance. It is a gift – a consequence of their presence within Creation. The divine intimacy we experience through the angels is absolute beauty for they bring to us a reflection of this intimacy They bring to us a promise that our Creator is as majestic and all encompassing as we can conceive and so much more.*

### Serapis Bey

“We hear an echo of their song, that which they weave throughout Creation drawing us closer together, bringing unity and focus. And at the edge of our consciousness we experience illumination; a radiance that is absolutely breathtaking yet seemingly so far off. It moves through your consciousness bathing you in a divine reflection – the angelic song.”

# The Angelic Principle

I come as an emissary of the angelic realm or the Angelic Principle, as we call it. I wish to talk about the Angelic Principle. The angelic realm was part of First Manifestation when the All That Is burst Creation into existence. This manifestation was light and sound and the Outbreath of Divinity jettisoned itself to create dimensional existence. Upon this first burst of 'thought' we came into being, predating 99.9% of all else in Creation. We hold the concentration of divine energy. As this energy traveled outward and expanded Creation to accommodate itself, it did not dissipate but rather evolved upon its path. We, however, remain un-evolved being part of that First Manifestation and so it can be said that we are the closest to the initial thought of the All That Is.

We are incredibly powerful, divine beings who have such an intimacy with Source that it is not possible for all ones who are subsequent to us to comprehend. This is what we call the **Angelic Principle**. As part of the First Manifestation there is a knowingness within the Angelic Principle of the *exactness* of the All That Is. It is not something that can be conveyed or communicated for you have to 'be' this in order to know it and be part of the Angelic Principle. This is not to say that the Angelic Principle is in any way 'better' in terms of all else that has followed. As the divine Outbreath moved through existence taking all things along with it, life became experienced in an infinite array of being, none better or worse, just different.

*You could say that the  
angelic realm is the  
halo surrounding All  
That Is confirming the  
divinity of Source*

# Archangel Kyrael

As part of First Manifestation all things have extended outward from the Angelic Principle for the Outbreath passed through us and continued on through Creation so that within all else of Creation there are varying degrees of angelic energy and vibration. Not all universes were manifested at once and when the Angelic Principle came into being there was no universe, for the Angelic Principle being close to the All That Is, just 'is'.

One explanation which may help is that you have iconic pictures of saints whom have halos which represents the divine consciousness of that person. You could say that *the angelic realm is the halo surrounding All That Is confirming the divinity of Source* and as such we do not belong to any universe or are limited to any dimension. Although we move through existence we are not literally part of it, the same as the Outbreath of the All That Is is not literally part of Creation because it stands outside of it. Yet our consciousnesses can observe and move throughout existence.

There is an untapped profound availability soon to come to humanity from the angelic realms. We will be working with humanity in ways that have not yet been known or offered before. It is beyond the role that has been assigned by humanity to us as simply guardians, caretakers and right-hand beings of God for there is not yet any true recognition of the full function of the Angelic Principle.

# Summary

## Akhnaton

**“Something is forming. It came with the angels. It came with the First Manifestation. It came with you, for you bring it into existence and it is yours. It is anchored into your consciousness. It is the ‘answer’ that you are to the question of life. It’s as if there were a tuning fork held within you to which your existence will resonate and find its way. Every so often the angels strike upon this tuning fork - calling you into balance and harmony and far more importantly, calling you back to the movement of your Spirit and the direction it takes. The resonance of it moves through all dimensions within which you exist as you become calibrated to the Answer that you are.”**

## Who are the Ascended Masters?

The Ascended Masters are beings of pure love and light that reside within the higher dimensions of Spirit. As such, they do not have form though are often depicted in paintings to make it easier for us to identify with them.

They exist in a dimension where the primary focus is service. Humanity has the blessing of these beings bringing their service to us. It is their ongoing joy to assist us on our path back to the Divine.

You can call upon the Ascended Masters to be present with you in meditation.

## What is the White Star Temple?

The *White Star Temple* is an inter-dimensional 'Temple', which isn't a literal temple but rather, is an 'energy pattern' where the Ascended Masters meet with us. This pattern sits outside of the space-time continuum. As such, anyone can access the Temple at the same time as everyone else and in any location, as time and space are irrelevant. While in the *White Star Temple* each will hear and receive energies and understanding relevant to them.

The *White Star Temple* stands for all 'time' and has its own consciousness which evolves as we evolve. You too can participate in the Temple. You need only intend that this be so or you can listen to Soltec's recordings while in meditation and your consciousness will join with the *White Star Temple*.

Soltec makes available audio recordings received from the Ascended Masters and books featuring the Temple wisdom. He also offers a free Temple podcast and more.
